PROFESSIONAL SUMMARY

Front-End Software Developer with over 1 year of professional experience building scalable, high-performance web applications using HTML, CSS, JavaScript, React.js, and Django. Proven track record of optimizing UI performance, converting business requirements into responsive themes, and strengthening full-stack capabilities with Python and Django.

WORK EXPERIENCE

AS Socialkit LLP — Frontend Software Developer

Nov 2024 – Feb 2026

- Engineered and customized 15+ responsive website themes from scratch based on business requirements.
- Enhanced existing themes by improving UI, functionality, and overall user experience.
- Architected full web page layouts and interactive UI elements using JavaScript and Bootstrap, ensuring consistent performance across major browsers and devices.
- Redesigned Contact Us, Pricing, and Enquiry pages across multiple existing website themes, enhancing mobile responsiveness, visual consistency, and user experience while maintaining each theme's overall design and branding.

Afflatus Gravures Pvt. Ltd. — Junior Engineer (J.E)

May 2018 – Jul 2020

- Logged and tracked ~40 cylinder orders per shift in the system by creating unique Job IDs and scanning sample data.
- Monitored ground-level workflows across departments to resolve delays and speed up high-priority client orders.
